Feelin Games
Publisher:
Feelin Games
Release Date: 22 Aug, 2018

b4d347fde0

Minimum:

OS: Windows 10

Processor: 2.6 GHz Dual Core or similar

Memory: 4 GB RAM

DirectX: Version 12

Storage: 300 MB available space

Additional Notes: Mouse and Keyboard

English

12:10

Faxion v0.1.0 Early Access

Its unfinished and not ready to be bought yet.. This can't be called a game. Like another reviewer said, it's nothing more than a tech demo, and a pretty empty and disappointing one at that. There is a lot of potetntial here. There needs to be more content, there needs to something to actually do, and building things needs to be made much, MUCH easier than it currently is. It's just frustrating right now to try and create anything, and I'm sure the point of this "game" is not to cause frustration. I would recommend purchasing only if you're feeling generous and want to support the devs in creating something that's better. But if you're looking for something usable, unfortnuately I can't recommend this. When it is finished, if it is ever finished, it may be a great buy. As of right now, it is not a great game.
